IT Fresher with strong skills in Web Development and Problem Solving, seeking to contribute to innovative IT solutions and continuously enhance technical expertise.

TECHNICAL SKILLS

Programming Languages	Java, JavaScript
Web Technologies	HTML, CSS, React.js, Node.js, REST APIs
Core Concepts	Data Structures and Algorithms, OOPs, AI (Basics)
Database	MySQL
Version Control System	Git, GitHub
Soft Skills	Critical thinking, Data-driven decision making, Communication, Presentation

EDUCATION

Bengal Institute of Technology Bachelors of Technology in Information Technology CGPA: 7.86	Sep 2021 – July 2025
Shree Jain Vidyalaya WBCHSE Percentage: 73.4%	April 2019 – Mar 2021
HindMotor High School WBBSE Percentage: 71.28%	Jan 2018 – Mar 2019

PROJECTS

ConversAI — Gemini-Powered Conversational Assistant

Developed a responsive AI chatbot using **Node.js, Express.js, JavaScript, HTML, and CSS**, integrated with the **Google Gemini API** for real-time natural-language responses. Implemented a RESTful `/api/chat` endpoint, secure API-key management with environment variables, error handling and automatic retry logic, and a mobile-responsive glassmorphism interface accessible across desktop and mobile devices.

Melodify — Responsive Music Streaming Web App

Developed a responsive music streaming web application inspired by modern streaming platforms, featuring a clean and interactive user interface. Implemented dynamic song browsing, album artwork, audio playback, progress tracking, and playback controls using **JavaScript**. Designed a mobile-friendly and visually appealing interface using **HTML** and **CSS** to provide a smooth user experience across devices.

Forecastify

Built a responsive web application that fetches and displays real-time weather data using OpenWeatherMap API. Users can search any city to view temperature, humidity, wind speed, and weather conditions. Integrated API handling, error management, and dynamic UI updates using JavaScript.
